

1 **S410 Standard for Professional Cleaning of the Built Environment for Infection**  
2 **Prevention and Control**

3  
4 **Substantive Changes Document**

5  
6 Third Limited Public Review (March 2025). Draft shows Proposed Changes to Standard.  
7

8 **Note to Reviewers:** *These changes are indicated in the text by underlining (for additions) and strikethrough*  
9 *(for deletions). Only these changes to the current standard are open for review and comment at this time.*  
10 *Additional material is provided for context only and is not open for comment except as it relates to the*  
11 *proposed changes.*

12  
13 **1.4 Crisis or Outbreak Cleaning**

14  
15 Outbreak cleaning is triggered when the relevant public health authority (e.g., US Public Health Service,  
16 Public Health Agency of Canada) declares an outbreak. Cleaning operations *shall* work in collaboration  
17 with, and follow directions established by the health authority to address the outbreak appropriately, when  
18 required. ~~The cleaning operation should protect the personnel performing the cleaning as well as the~~  
19 ~~occupants of the space being cleaned from exposure to airborne hazards.~~
