

Please note, the outdated Mold Removal Specialist Certification (awarded prior to 2023) is not available for recertification. If you previously held this Certification, you must start a new application for the updated and ANAB Accredited Mold Remediation Specialist Certification. If you are unsure, please contact our MRS Team at mrs@iicrcnet.org.

If you currently hold the ANAB Accredited Mold Remediation Specialist Certification, and need to recertify, please click here to visit our [MRS Recertification](#) information webpage.”
